Nova Scotia Environment received the Declaration of Property Condition (DPC) dated October 21, 2020 pertaining to the remediation of the above noted property.

In accordance with Sections 15 and 16 of the *Contaminated Sites Regulations*, the DPC serves as the Site Professional's assurance that the *Contaminated Sites Regulations* and related Ministerial protocols have been complied with. The DPC has been filed with the Minister. The consequence of filing a DPC is detailed in Section 17 of the *Contaminated Sites Regulations*.

This is to confirm that Her Majesty the Queen, in right of the Province of Nova Scotia, accepts no liability and that no action for damages may be commenced or maintained and no cause of action lies against the Provincial Crown or any employee thereof as a result of the Department's recognition of this DPC.

The Department has not supervised any work undertaken at the property(ies), and it does not assume any responsibility or liability for that work. Furthermore, the Department is not responsible for notifying future owners or present or future occupants of the property(ies) of the work that was completed.

Yours truly,  
Nova Scotia Environment
